"The Company will continue to incur legal expenses related to FERC cases, and it is in the best interest of UNS Gas's customers for the Company to monitor and participate as necessary in those proceedings. Therefore, we agree with UNS Gas that this is a variable expense and should be normalized. We used a three year average to normalize outside legal expenses in the last UNS Gas rate case, and we see no reason to depart from this practice in this case. We will allow an adjustment of \$305,984 to test year outside legal expenses in this case."

Make all conforming changes.
